

mariedm Skin Research Center

As a specialized human clinical testing organization for cosmetics and functional supplements, we provide best-in-class clinical evaluation services grounded in scientific evidence and reliability

MARiEDmTM

Table of Contents

01

Introduction to mariedm Skin Research Center

Core capabilities of a specialized human clinical testing organization

03

Organizational Structure and Key Strengths

Specialized expertise supported a systematic operational framework

05

Differentiating Factors

Certifications, research achievements, and strategic partners

02

Vision and Business Areas

Strategic direction for future-oriented value creation

04

Evaluation System

Research facilities, quality management, and assessment procedures

Introducing mariedm Skin Research Center?

A specialized human clinical testing institution for cosmetics, health functional foods, and quasi-drugs

Business Area

Human skin efficacy and safety assessment for cosmetics, cosmetic ingredients, health functional foods, quasi-drugs, and related products

Location

6F, 214 Pungseong-ro, Gangdong-gu, Seoul (Dongsung Building, Seongnae-dong)

Established

August 3, 2018

Core Value

A corporate culture grounded in exceptional expertise, research ethics, trust, and empathy

Key Certifications

ISO 9001:2015, IRB (Institutional Review Board), Corporate Research Institute, Specialized Research Business Operator, Women-Owned Business

mariedm Skin Research Center's Vision

Leading the future of the cosmetics industry through scientific evidence and innovative research

Creating Future Value

A future-oriented company that creates new value through continuous innovative research and novel evaluation methods

Solution Proposals

Providing innovative solutions for product planning and marketing based on diverse clinical case studies

Customized Design

Customized evaluation designs tailored to customer needs and the cosmetics market

Technology and Trust

Technology and reliability that make mariedm Skin Research Center a trusted partner

Scientific Reports

Reports delivered based on scientific methods and evidence

BUSINESS

Business Sector

Comprehensive in Dermatology-Related Evaluation Services

Cosmetics and Cosmetic Ingredients

Demonstrating product value through skin efficacy and safety assessments

Functional Supplements

Validation of the efficacy of nutraceuticals and dietary supplements through human clinical studies

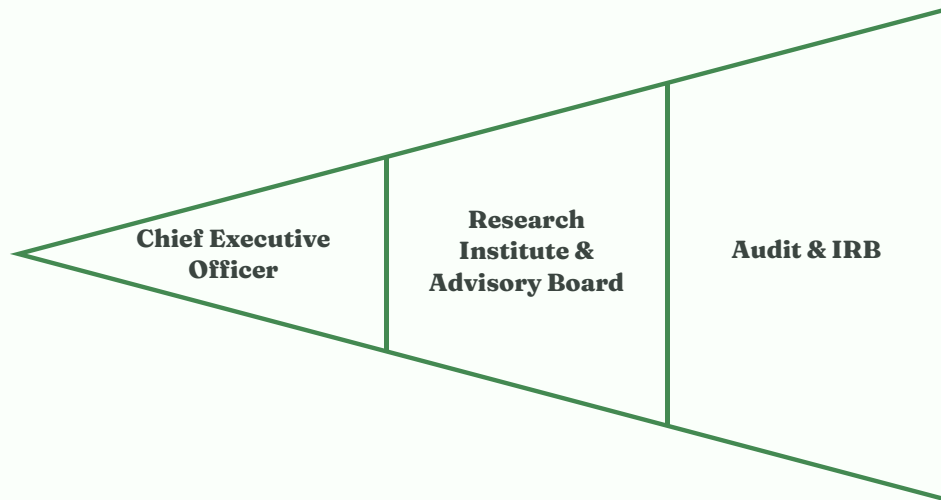

Quasi-Drugs and Beauty Devices

Research Infrastructure and Evaluation Capabilities

Marriedm Skin Research Center has established a standardized research infrastructure and analytical equipment for human clinical testing and *in-vitro* evaluation.

***In Vitro* Evaluation**

In-vitro laboratory assessments and external collaborative studies

Evaluation of Cosmetic Efficacy and Safety

Equipped with a wide range of measurement instruments

Evaluation of Functional Supplements

Collaborative research projects with tertiary hospitals

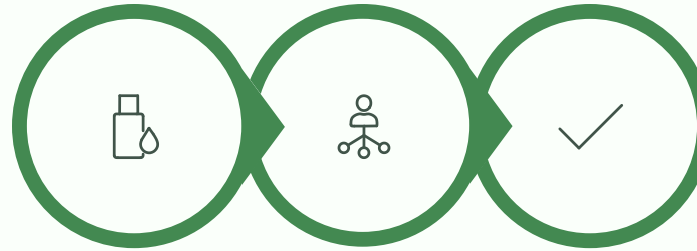

SPF, PFA, and Blue Light Evaluation

Customized Study Design:

We design specialized clinical studies and protocols tailored to the sponsor's product concept.

Year-by-Year Key Achievement Roadmap

2023
Foundation
Building

2024
Expansion

2025
Enhanced
Validation

2023

Research and Academic Achievements

Publication in SCI-Indexed Journals - Validating the Scientific Reliability of Our Research Findings

Participation in the 33rd IFSCC Congress - Knowledge sharing with the global cosmetics science community

Cosmetics and Food Regulatory Certification

Obtained individual food certification from the MFDS (Certification No. 2023-35)

Systems and Infrastructure

Introduced M-TEGS - Advanced management system for clinical study participants

2024

Research and Academic Achievements

Conference participation and poster presentations at the Skin Barrier Society and the Korean Cosmetic Society introduced a new blood flow assessment system; patent application in progress

Cosmetics and Food Regulatory Certification

Obtained individual food recognition from the MFDS (Certification No. 2024-4)

Received certification for stretch mark functional efficacy

Infrastructure

Registered as an implementing institution for the government SME voucher support program

2025

Research and Academic Achievements

Publication of multiple international journal articles
Publications on Sensitive Skin in Korean Journals - Demonstrating Expertise in a Specialized Research Field
IFSCC poster presentation - Expanded international academic engagement

Cosmetics and Food Regulatory Certification

Obtained individual food certification from the MFDS (Certification No. 2025-2), (Certification No. 2025-40)

QUALITY SYSTEM

Quality Management System

mariedm Skin Research Center operates a systematic quality management system across the full research process.

Document Management System NAS SYSTEM

Centralized document storage and management ensure data accessibility and backup integrity.

Experimental Management System INNO PROGRAM + M-TEGS

A structured experimental process management system supported by the mariedm Skin Research Center Testee Guidance System.

Document Security System DOCURAY DRM

Digital rights management helps prevent information leakage and controls access permissions.

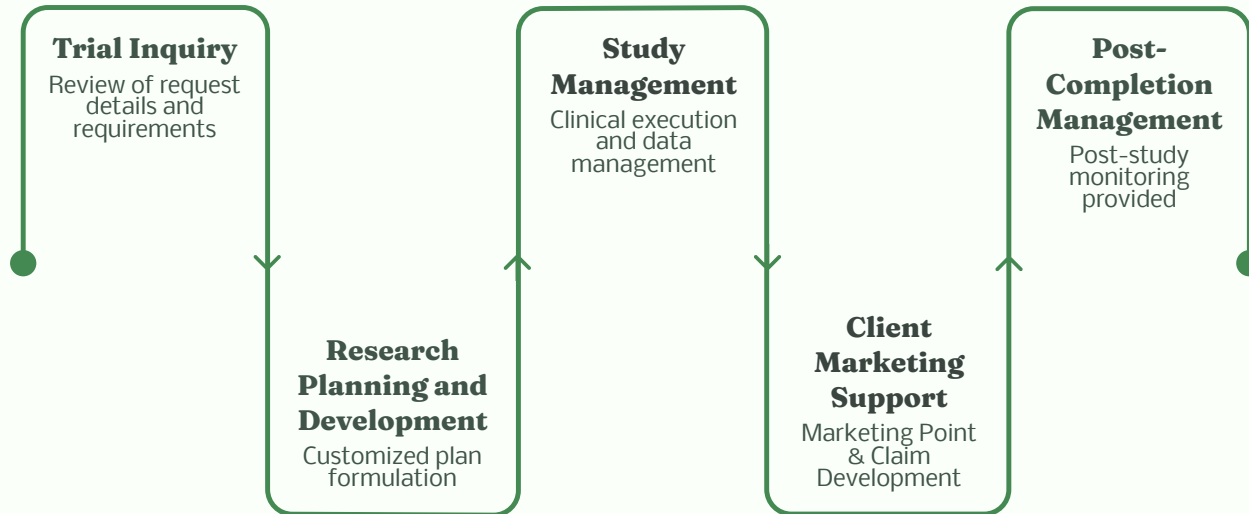

Subject Management System ELECTRONIC FILING SYSTEM

Secure electronic documentation and systematic management of subject information.

Even after trial completion, the consistency and usability of study data are continuously maintained.

mariedm Skin Research Center's Evaluation Process

A systematic five-step process supports the entire workflow, from trial inquiry through post-completion management.

01

Trial Inquiry and Product Analysis

Collection of detailed information on the client's desired marketing claims and the product

02

Research Planning in Consideration of Market and Regulatory Conditions

Presentation of a customized research protocol based on the latest cosmetics market analysis, with optimal clinical trial recommendations

03

Study Management

IRB approval and protocol, CRF management, human clinical testing, data management, statistical analysis, and report delivery

04

Client Marketing Support

Design of marketing claims for marketed products and provision of the mariedm Skin Research Center certification mark

05

Post-Completion Management

Ongoing post-study management and additional consulting services

Certification and Evaluation Mark

The Institute's certification mark serves as verification that the result is based on human clinical testing conducted by mariedm Skin Research Center and may be used in a limited manner only for report-based marketing materials.
